Magento Integration Guidelines

Please create a backup copy of your database and website before you start following these guidelines. We recommend this as a precaution measure.

Step 1.

Log in to your Magento Admin Panel.

Step 2.

Click on the 'System' tab of the upper navigation panel and choose 'Configuration', like in the picture below:

Magento [®] Admin Panel	Global Record Search	
Dashboard Sales Catalog	Customers Promotions Newsletter CMS Repor	ts System
Latest Message: Magento CE Version 1.4	1.1.1 Patch Available Read details	My Account You have
		Notifications
Current Configuration Scope:	General	Tools
Default Config -		Web Services
Manage Stores	Countries Options	Design
	Locale Options	Import/Export
Configuration	Store Information	Manage Currency Rates
GENERAL		Transactional Emails
General		Custom Variables
Web		Permissions
Design		Magento Connect
Currency Setup		Cache Management
Store Email Addresses		Index Management
Contacts		Manage Stores
Reports		Configuration
Content Management		Congulatori
CATALOG		
Catalog		
Inventory		
Google Sitemap		
RSS Feeds		

info@cdnvideo.com

Step 3.

At the side menu, click the 'Web' tab, and then go to the 'Unsecure' section.

Step 4.

Specify your CDNvideo domain name (you can find it in the email message with all settings that you received from our employee). Don't forget to click the 'Save Config' button to save the changes.

Catalog												

Step 5.

Choose the 'Main Website' item from the 'Current Configuration' drop-down menu.

Step 6.

From the side menu go to Web > Unsecure > Base Skin URL. Clear the 'Use Default' checkbox opposite to 'Base Skin URL' and opposite to the 'Base Skin URL' type: example.cdnvideo.com/skin/, as you can see in the picture below:

Verification

To make sure that your Magento account is now connected to CDN, have a look at your HTML source code. Your image links should be replaced with the CDN links.
